

Online Classes

Flexible and Accessible Online English Courses

At Safir Language Academy, we bring the classroom to you with our Cybertalk courses, designed to offer flexibility without compromising on quality. Whether you are just starting your English learning journey or preparing for advanced fluency, our online classes cater to all proficiency levels. With the option to attend from anywhere, our courses fit seamlessly into your lifestyle, allowing you to learn at your own pace while balancing work, studies, or other commitments.

Engaging Virtual Classrooms

Our online classes, hosted through Adobe Connect, provide an interactive and immersive learning experience. You will participate in live classes where you can engage with your teacher and classmates through breakout rooms, polls, and shared whiteboards, ensuring dynamic and collaborative learning. These virtual classrooms replicate the environment of face-to-face learning, making it easy to stay engaged and motivated throughout your course.

Blended Learning with Comprehensive Materials

Our online courses integrate the Evolve series textbooks, alongside additional online resources. These courses combine live sessions with offline pre-class activities to maximise your learning experience. You will have access to recorded sessions, exercises, and interactive content to reinforce your language skills beyond the virtual classroom, ensuring a rich and comprehensive educational experience tailored to your needs.

Expert Teachers and Personalised Support

Our experienced teachers deliver lessons tailored to the needs of online learners, ensuring personalised attention in every session. They use a combination of live classes, feedback sessions, and practical activities to help you stay on track with your language goals. Whether you need assistance with grammar, speaking, or writing, our teachers are there to guide you every step of the way.

Easy Online Placement Test

We offer a convenient online placement test to ensure that you start at the appropriate level. This test evaluates your current English proficiency, helping us place you in a course that matches your skills. By beginning at the right level, you can progress confidently and focus on improving in the areas that matter most.
